A vertical poster for a film. At the top, a white lampshade hangs from a cord, casting a warm, circular glow on a wooden desk surface below. On the desk, a spiral-bound notebook is open, and a pencil lies to its right. The background is dark, making the illuminated areas stand out.

FOREVER IN OUR HEARTS

**DR. TIMOTHY J.
DETTER, MD**

★ December 17, 1955

† February 24, 2024

He was a passionate and devoted Doctor and Partner of West Houston Family Practice Associates. He was a kind, noble, funny, confident, caring, and compassionate man. Also, he was very patient, a great helper who taught people in practice, self-flex, a person who gave words of advice, simple, humble, grateful, and smart. He was always there for his staff and patients. A special person who is irreplaceable.

Loving Memories

"The best and most beautiful things in the world cannot be seen or even touched, they must be felt with the heart." "If ever there is a tomorrow when we're not together, there is something you must always remember."

May my legacy be one of cheer,
with happy times and laughter near.

May tears be replaced with smiles,
as my memory spans for miles.

May my life be remembered
with glee, as a bright and sunny legacy.

May the memories I leave behind
be filled with laughter and love in kind.

Miss me a little-but not too long and
not with your head bowed low.
Remember the love that we once
shared, Miss me- but let me go.
